CLINICAL TRAINING IN PSYCHOTHERAPY

Dear friend of PCS:

Pastoral Counseling Services recently re-started its Clinical Training in Psychotherapy Program. This program is designed to provide clinical training and supervision to students and graduates of accredited mental health programs who are pursuing careers as licensed clinicians.

The intern and resident therapists in this program provide mental health counseling and psychotherapy under the supervision of licensed senior staff clinicians at Pastoral Counseling Services. In addition, they participate in weekly educational seminars and group supervision and attend staff meeting and case consultations.

The program's trainees are able to provide psychotherapy to individuals who do not have health insurance or persons who choose not to use their health insurance because of a very high deductible. And they are able to do this at a very low fee, based on income and family size. The intern and resident therapists are able to address a wide variety of presenting concerns and problems, including depression, anxiety, family stress, spiritual issues, relationship conflicts, parenting stress, vocational uncertainty, and trauma, among others.

If you know of individuals, couples, or families who could benefit from this clinically sound, spiritually sensitive, and low-cost counseling, please have them contact me at (603) 627-2702, ext. 116.

Sincerely,

Calvin R. Genzel, Ph.D.
Director of Clinical Services
